Hello,

The EPA has extended the public comment period through Monday, June 19, 2017 for the proposed Underground Injection Control (UIC) Program actions at the Dewey-Burdock site located near Edgemont, SD. These actions include two draft UIC permits and a proposed aquifer exemption decision. Please see the EPA website for the official announcement and administrative record for these proposed actions:

The EPA will accept mailed written comments postmarked by June 19 and emailed and faxed comments date stamped by midnight Mountain Time at the close of June 19. My contact information is listed at the bottom of this email and on the website above.

Thank you for your participation in the EPA public review process for these proposed actions.

Valois
